Introduction

Qualifications Pack - Bar Bender & Steel Fixer

SECTOR: CONSTRUCTION

SUB-SECTOR: Real Estate and Infrastructure Construction

OCCUPATION: BAR BENDING & FIXING

REFERENCE ID: CON/Q0203

ALIGNED TO: NCO-2004/7214.70

This job role performs cutting, bending and fabrication of reinforcement steel as per

drawing

Brief Job Description: Bar bender & Steel Fixer is responsible for marking, cutting and bending of rebars using hand or power tools effectively, fabricating, placing and fixing reinforcement at the desired location using correct ties within specified time and tolerance. The individual should have good knowledge of safe work practices and handling of rebars properly.

Personal Attributes: The individual is expected to be physically fit and should be able to work across various locations in withstanding extreme conditions while working. The individual should be organized, diligent, methodical and able to implement and maintain safety practices. The individual should have independent ability to take quick decisions and have good communication skills and shall be able to work within a team to handle various bar bending tools and materials and work responsibly for own work within defined limit.

Qualifications Pack Code	CON/Q0203			
Job Role	Bar Bender & Steel Fixer			
Credits(NSQF)	TBD Version number 1.0			
Sector	Construction Drafted on		07/03/2015

Keywords / Terms Description

Qualifications Pack For Bar Bender

Sector	Sector is conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-Sector	Sub-Sector is derived from a further breakdown based on the characteristics and interests of its components
Occupation	Occupation is a set of job roles, which perform similar/related set of functions in an industry
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organization.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the knowledge and understanding they need to meet the standard consistently. Occupational Standards are applicable both in the Indian contexts.
Performance Criteria	Performance Criteria are statements that together specify the standard of performance required when carrying out a task.
Qualifications Pack (QP)	Qualifications Pack comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A Qualification Pack is assigned a unique qualification pack code
Qualification Pack Code	Qualification Pack Code is a unique reference code that identifies a qualifications pack.
National Occupational Standards (NOS)	NOS are Occupational Standards which apply uniquely in the Indian context.
Scope	Scope is the set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on the quality of performance required.
Knowledge and Understanding	Knowledge and Understanding are statements which together specify the technical, generic, professional and organizational specific knowledge that an individual needs in order to perform to the required standard
Organizational Context	Organizational Context includes the way the organization is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical Knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills / Generic Skills	Core Skills or Generic Skills are a group of skills that are key to learning and working in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.

Read and understand routine drawings / sketches and Bar Bending Schedule

National Occupational Standard

Overview

This NOS covers the skills and knowledge required by a workman to read and understand routine drawings / sketches and Bar Bending Schedule.

Read and understand routine drawings / sketches and Bar Bending Schedule

Unit Code	CON/N0204			
Unit Code	CON/N0204			
Unit Title (Task)	Read and understand routine drawings / sketches and Bar Bending Schedule			
Description	This unit describes the skills and knowledge to read and understand routine drawings / sketches and Bar Bending Schedule.			
	This scope covers the following:			
Scope	 Read and understand routine drawings / sketches Read and understand Bar Bending Schedule 			
Performance Criteria	a (PC) w.r.t. the Scope			
Element	Performance Criteria			
Read and understand routine drawings / sketches	to be competent, the user / individual on the job must be able to PC1. read and interpret basic detail from the sketches / drawings PC2. understand fixing/insertion sequence from the drawings PC3. find out the direction and position of rebars from the drawing PC4. calculate number of chairs, spacer bars requirement to be used PC5. find out the size and type of cover block to be used from the drawing PC6. calculate cutting length required for basic works from the sketches PC7. plan for cutting of rebars as per instructions			
Read and understand Bar Bending Schedule	PC8. read & interpret correct detail from Bar bending schedule including types, diameter, shape, cutting length, number of rebars PC9. calculate the cutting length of rebar from the provided BBS PC10. understand terms used in bar bending schedule PC11. estimate quantities of work from bar bending schedule PC12. plan for cutting of rebars as per instructions, considering minimum wastage and cutting length			
Knowledge and	Jnderstanding (K)			
A. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: KA1. standard practices for reinforcement work KA2. safety rules and regulations for handling and storing required tools, equipment and materials KA3. personal protection including the use of related safety gears & equipments KA4. service request procedure for tools, materials and equipments			
	KA5. maintenance of tools and equipments			
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. how to read basic drawing/sketches for bar bending and fixing works KB2. use of measurement and marking tool KB3. simple arithmetic calculation			

Read and understand routine drawings / sketches and Bar Bending Schedule

RB4. how to carry out simple measurements using metric and imperial systems KB5. how to read and understand BBS KB6. conversion of linear unit for measurement KB7. unit weight of steel KB8. different types of cover block and their uses KB9. how to prevent reinforcement from rusting KB10. different types of steel rods, length and diameter KB11. different types of binding wire, thickness and uses KB12. mould forms and their specific requirements along with process / procedure to be followed for pre cast reinforcement KB13. basic material properties of bars like strength Skills (S) Writing Skills The user/ individual on the job needs to know and understand how to: SA1. write in one or more language, preferably the local language at the site Reading Skills The user/ individual on the job needs to know and understand how to: SA2. read osketches/Drawing or instructions provided for the work SA3. read vsketches/Drawing or instructions provided for the work SA4. read vsarious, sign boards, safety rules and safety tags, instruction related to exit routes during emergency at the workplace Oral Communication (Listening and Speaking skills) The user/ individual on the job needs to know and understand how to: SA5. speak in one or more language, preferably one of the local language at the site SA6. listen and follow instructions given by the superior Decision Making The user/individual on the job needs to know and understand how to: SB1. decide whether his workplace is safe for working and also his work is not creating hazardous conditions for other Plan and Organise The user/individual on the job needs to know and understand how to: SB2. plan work & organize required resource in coordination with team members and superior Customer centricity					
K86. conversion of linear unit for measurement K87. unit weight of steel K88. different types of cover block and their uses K89. how to prevent reinforcement from rusting K810. different types of steel rods, length and diameter K811. different types of binding wire, thickness and uses K812. mould forms and their specific requirements along with process / procedure to be followed for pre cast reinforcement K813. basic material properties of bars like strength Skills (S) Writing Skills The user/ individual on the job needs to know and understand how to: SA1. write in one or more language, preferably the local language at the site Reading Skills The user/ individual on the job needs to know and understand how to: SA2. read one or more language, preferably the local language at the site SA3. read /sketches/Drawing or instructions provided for the work SA4. read various, sign boards, safety rules and safety tags, instruction related to exit routes during emergency at the workplace Oral Communication (Listening and Speaking skills) The user/ individual on the job needs to know and understand how to: SA5. speak in one or more language, preferably one of the local language at the site SA6. listen and follow instructions given by the superior Decision Making The user/individual on the job needs to know and understand how to: S81. decide whether his workplace is safe for working and also his work is not creating hazardous conditions for other Plan and Organise The user/individual on the job needs to know and understand how to: S82. plan work & organize required resource in coordination with team members and superior					
KB7. unit weight of steel KB8. different types of cover block and their uses KB9. how to prevent reinforcement from rusting KB10. different types of binding wire, thickness and uses KB11. mould forms and their specific requirements along with process / procedure to be followed for pre cast reinforcement KB13. basic material properties of bars like strength Skills (S) Writing Skills The user/ individual on the job needs to know and understand how to: SA1. write in one or more language, preferably the local language at the site Reading Skills The user/ individual on the job needs to know and understand how to: SA2. read one or more language, preferably the local language at the site SA3. read /sketches/Drawing or instructions provided for the work SA4. read various, sign boards, safety rules and safety tags , instruction related to exit routes during emergency at the workplace Oral Communication (Listening and Speaking skills) The user/ individual on the job needs to know and understand how to: SA5. speak in one or more language, preferably one of the local language at the site SA6. listen and follow instructions given by the superior Decision Making The user/individual on the job needs to know and understand how to: SB1. decide whether his workplace is safe for working and also his work is not creating hazardous conditions for other Plan and Organise The user/individual on the job needs to know and understand how to: SB2. plan work & organize required resource in coordination with team members and superior					
KBB. different types of cover block and their uses KB9. how to prevent reinforcement from rusting KB10. different types of steel rods, length and diameter KB11. different types of binding wire, thickness and uses KB12. mould forms and their specific requirements along with process / procedure to be followed for pre cast reinforcement KB13. basic material properties of bars like strength Skills (S) Writing Skills The user/ individual on the job needs to know and understand how to: SA1. write in one or more language, preferably the local language at the site Reading Skills The user/ individual on the job needs to know and understand how to: SA2. read one or more language, preferably the local language at the site SA3. read /sketches/Drawing or instructions provided for the work SA4. read various, sign boards, safety rules and safety tags, instruction related to exit routes during emergency at the workplace Oral Communication (Listening and Speaking skills) The user/ individual on the job needs to know and understand how to: SA5. speak in one or more language, preferably one of the local language at the site SA6. listen and follow instructions given by the superior Decision Making The user/individual on the job needs to know and understand how to: SB1. decide whether his workplace is safe for working and also his work is not creating hazardous conditions for other Plan and Organise The user/individual on the job needs to know and understand how to: SB2. plan work & organize required resource in coordination with team members and superior					
KB9. how to prevent reinforcement from rusting KB10. different types of steel rods, length and diameter KB11. different types of binding wire, thickness and uses KB12. mould forms and their specific requirements along with process / procedure to be followed for pre cast reinforcement KB13. basic material properties of bars like strength Skills (S) Writing Skills The user/ individual on the job needs to know and understand how to: SA1. write in one or more language, preferably the local language at the site Reading Skills The user/ individual on the job needs to know and understand how to: SA2. read one or more language, preferably the local language at the site SA3. read /sketches/Drawing or instructions provided for the work SA4. read various, sign boards, safety rules and safety tags, instruction related to exit routes during emergency at the workplace Oral Communication (Listening and Speaking skills) The user/ individual on the job needs to know and understand how to: SA5. speak in one or more language, preferably one of the local language at the site SA6. listen and follow instructions given by the superior Decision Making The user/individual on the job needs to know and understand how to: SB1. decide whether his workplace is safe for working and also his work is not creating hazardous conditions for other Plan and Organise The user/individual on the job needs to know and understand how to: SB2. plan work & organize required resource in coordination with team members and superior					
KB10. different types of steel rods, length and diameter KB11. different types of binding wire, thickness and uses KB12. mould forms and their specific requirements along with process / procedure to be followed for pre cast reinforcement KB13. basic material properties of bars like strength Skills (S) Writing Skills The user/ individual on the job needs to know and understand how to: SA1. write in one or more language, preferably the local language at the site Reading Skills The user/ individual on the job needs to know and understand how to: SA2. read one or more language, preferably the local language at the site SA3. read /sketches/Drawing or instructions provided for the work SA4. read various, sign boards, safety rules and safety tags, instruction related to exit routes during emergency at the workplace Oral Communication (Listening and Speaking skills) The user/ individual on the job needs to know and understand how to: SA5. speak in one or more language, preferably one of the local language at the site SA6. listen and follow instructions given by the superior Decision Making The user/individual on the job needs to know and understand how to: SB1. decide whether his workplace is safe for working and also his work is not creating hazardous conditions for other Plan and Organise The user/individual on the job needs to know and understand how to: SB2. plan work & organize required resource in coordination with team members and superior

Read and understand routine drawings / sketches and Bar Bending Schedule

The user/individual on the job needs to know and understand how to:

SB3. complete work as per agreed time schedule and quality

Problem solving

The user/individual on the job needs to know and understand how to:

- SB4. rectify any problem in related to fixing or insertion of reinforcement in congested area
- SB5. resolve any conflict within the team

Analytical Thinking

The user/individual on the job needs to know and understand how to:

- SB6. insert and fix reinforcement in case of critical structures
- SB7. revert to superior for selection/sorting of materials
- SB8. minimize wastages
- SB9. optimize resources

Critical Thinking

The user/individual on the job needs to know and understand how to:

- SB10. evaluate the complexity of the tasks and seek assistance and support wherever required
- SB11. identify violation of any safety norms which may lead to accidents

Read and understand routine drawings / sketches and Bar Bending Schedule

CON/N0205 Use hand and power tools for cutting and bending of reinforcement

National Occupational Standard

Overview

This NOS covers the skills and knowledge required by a workman for using hand and power tools for cutting and bending of reinforcement.

Use hand and power tools for cutting and bending of reinforcement

Unit Code	CON/N0205
Unit Title (Task)	Use hand and power tools for cutting and bending of reinforcement
Description	This unit describes the skills and knowledge required for using hand & power tools for cutting and bending of reinforcement.
Scope	 This scope covers the following: Use hand and power tools for cutting of reinforcement bars Use hand and power tools for bending of reinforcement bars
Performance Criteria	(PC) w.r.t. the Scope
Element	Performance Criteria
Use hand and power tools for cutting of reinforcement bars	To be competent, the user / individual on the job must be able to PC1. select hand tools/power tools for cutting rebars as per requirement / instruction PC2. select cutting blade for cutting of rebar as per requirement / instruction PC3. make use of measurement and marking tool to mark on rebars for cutting as per specified length in the BBS PC4. place rebars properly for cutting, as per requirement and instruction PC5. ensure adequate number of rods are placed for cutting to avoid damage to machine PC6. maintain correct body posture while cutting rebars manually or mechanically PC7. tag and stack rebars after cutting as per standards practices
Use hand and power tools for bending reinforcement bars	PC8. select hand/power tools for bending rebars with respect to the work PC9. select accessories for bending with respect to the diameter of rebar used & machine used PC10. mark on rebar and place & fix rods on correct position for bending PC11. maintain correct body posture while bending rebars manually or mechanically PC12. bend rebars as per the shape and dimensions given in the BBS, including hooks PC13. check for length, shape of rebars to ensure they are within the tolerance limit PC14. tag and stack rebars after bending as per standard practices
Knowledge and U	nderstanding (K)
A. Organizational Context (Knowledge of the company / organization and	The user/individual on the job needs to know and understand: KA1. standard practices for reinforcement work KA2. safety rules and regulations for handling and storing required tools, equipment and materials KA3. personal protection including the use of related safety gears & equipments

Use hand and power tools for cutting and bending of reinforcement

its processes)	KA4. service request procedure for tools, materials and equipments
its processes,	KA5. maintenance of tools and equipments
	The user/individual on the job needs to know and understand:
B. Technical	KB1. safety measures for use of different types of hand and power tools
Knowledge	KB2. different types of power tools, accessories for cutting, bending and threading of reinforcement
	KB3. how to fix cutting blade and other accessories in cutting and bending machine KB4. knowledge about capacity and required details of cutting machines, bending machine and threading machine
	KB5. use of CNC machine for reinforcement works
	KB6. methods of protecting steel from rusting
	KB7. tolerance limits for bending and cutting of rebars
	KB8. tagging procedures for rebars basis shape, size and location
	KB9. types of hand tool available for cutting and bending
	KB10. use of measurement and marking tools
	KB11. simple arithmetic calculation
	KB12. how to carry out simple measurements using metric and imperial systems
	KB13. how to read and understand BBS in order to carry out cutting and bending of
	reinforcement
	KB14. conversion of linear unit for measurement
	KB15. unit weight of steel KB16. method and knowledge of storing cut rebars and scrap material
Skills (S)	KB10. Method and knowledge of storing cut repairs and scrap material
Simila (3)	Muiting Chille

CON/N0206 Prepare, fabricate, place and fix reinforcement for RCC structures

National Occupational Standard

Overview

This NOS covers the skills and knowledge required by a workman to prepare, fabricate, place and fix reinforcement for RCC structures.

National Occupational Standards

CON/N0206

Prepare, fabricate, place and fix reinforcement for RCC structures

Unit Code	CON/N0206	
Unit Title (Task)	Prepare, fabricate, place and fix reinforcement for RCC structures	
Description	This unit describes the skills and knowledge required to prepare, fabricate, place and fix reinforcement for RCC structures as per Bar bending Schedule.	
Scope	 This scope covers the following: Fabricate, place and fix reinforcement for R.C.C structures as per Bar Bending Schedule and drawing 	
Performance Criteria (PC) w.r.t. the Scope	
Element	Performance Criteria	
Schedule and drawing Performance Criteria (PC) w.r.t. the Scope		
Knowledge and Un	Knowledge and Understanding (K)	

Prepare, fabricate, place and fix reinforcement for RCC structures

A. Organizational	The user/individual on the job needs to know and understand:
Context	KA1. standard practices for reinforcement work
(Knowledge of	KA2. safety rules and regulations for handling and storing required tools,
the company /	equipment and materials
organization and	KA3. personal protection including the use of related safety gears & equipments
its processes)	KA4. service request procedure for tools, materials and equipments
	KA5. maintenance of tools and equipments
B. Technical	The user/individual on the job needs to know and understand:
Knowledge	KB1. basic drawing/sketches related to reinforcement work
	KB2. sequence for tying of reinforcement for in-situ, prefabrication works
	KB3. insertion and fixing process for slab, beam, column, footing, wall, staircase
	etc.
	KB4. one way and two way slab
	KB5. prefabrication of reinforcement cage and its uses in different types of
	structure KB6. lapping length and importance of lapping for different diameter of rebars
	KB7. different types of stirrups and ties used in bar bending works
	KB8. importance of clear cover while carrying out reinforcement works
	KB9. use of chairs, spacer bar, hanger bars
	KB10. use of mechanical coupler and threading of reinforcement
	KB11. standard tolerance levels in reinforcement works
KB12. conversion of linear units	
	KB13. how to check the quality of cutting blade by visual inspection
	KB14. how to check the quality of accessories which are used for cutting & bending
	of rebars KB15. electrical safety of powers tools and equipments used in bar bending works
	KB15. different types of rebars
	KB17. different types and thickness of binding wire
	KB18. different types of cover blocks available
	KB19. basics of concreting works
	KB20. basics of shuttering works
Skills (S)	
A. Core Skills/	Writing Skills
Generic Skills	The user/ individual on the job needs to know and understand how to:
	SA1. write in one or more language, preferably the local language at the site
	Reading Skills

Prepare, fabricate, place and fix reinforcement for RCC structures

	The user/ individual on the job needs to know and understand how to:
	SA2. read in one or more language, preferably the local language at the site read
	one or more language, preferably the local language at the site
	SA3. read /sketches/Drawing or instructions provided for the work
	SA4. read bar bending schedule provided by supervisor for the placing and fixing of einforcement
	SA5. read various, sign boards, safety rules and safety tags, instruction related to
	exit routes during emergency at the workplace
	Oral Communication (Listening and Speaking skills)
	The user/individual on the job needs to know and understand how to:
	SA6. speak in one or more language, preferably one of the local language at the site
	SA7. listen and follow instructions given by the superior
	Decision Making
	The user/individual on the job needs to know and understand how to:
	SB1. decide whether the work place is safe for working and also relevant task is not creating hazardous condition for others
	SB2. decide on correct method for insertion/ fixing of rebars for any kind of critical structure or in congested area
	Plan and Organise
	The user/individual on the job needs to know and understand how to:
B. Professional Skills	SB3. plan work & organize required resource in coordination with team members and superior
SKIIIS	Customer centricity
	The user/individual on the job needs to know and understand how to:
	SB4. complete work as per agreed time schedule and quality
	Problem solving
	The user/individual on the job needs to know and understand how to:
	SB5. rectify any problem in related to fixing or insertion of reinforcement in
	congested area
	SB6. resolve any conflict within the team
	Analytical Thinking

Prepare, fabricate, place and fix reinforcement for RCC structures

The user/individual on the job needs to know and understand how to:

SB7. insert and fix reinforcement in case of critical structures

SB8. minimize wastages

SB9. optimize resources

SB10. revert to superior for selection/sorting of materials

Critical Thinking

The user/individual on the job needs to know and understand how to:

- SB11. evaluate the complexity of the task and seek assistance and support wherever required
- SB12. bring to the notice of the superiors violation of any safety norms which may lead to accidents

CON/N8001 Work effectively in a team to deliver desired results at the workplace

National Occupational Standard

Overview

This NOS covers the skill and knowledge required to work effectively within a team to achieve the desired results.

National Occupational Standards

CON/N8001

Work effectively in a team to deliver desired results at the workplace

Unit Code	CON/N8001	
Unit Title (Task)	Work effectively in a team to deliver desired results at the workplace	
Description This unit describes the skills and knowledge required to work effectively team to achieve the desired results.		
Scope	 Interact and communicate effectively with co-workers, superiors and sub-ordinates across different teams Support co-workers, superiors and sub-ordinates within the team and across interfacing teams to ensure effective execution of assigned task 	
Performance Criteria	(PC) w.r.t. the Scope	
Element	Performance Criteria	
Interact and communicate in effective and conclusive manner	To be competent, the user / individual on the job must be able to: PC1. pass on work related information/ requirement clearly to the team members PC2. inform co-workers and superiors about any kind of deviations from work PC3. address the problems effectively and report if required to immediate supervisor appropriately PC4. receive instructions clearly from superiors and respond effectively on same PC5. communicate to team members/subordinates for appropriate work technique and method PC6. seek clarification and advice as per requirement and applicability	
Support co-workers to execute project requirements	PC7. hand over the required material, tools tackles, equipment and work fronts timely to interfacing teams PC8. work together with co-workers in a synchronized manner	
Knowledge and U	nderstanding (K)	
A. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: KA1. own roles and responsibilities KA2. importance of effective communication and establishing strong working relationships with co-workers KA3. risks of a failure in teamwork in terms of effects on project outcomes, timelines, safety at the construction site, etc. KA4. different modes of communication, and its appropriate usage KA5. importance of creating healthy and cooperative work environment among the gangs of workers	

National Occupational Standards

CON/N8001

Work effectively in a team to deliver desired results at the workplace

B. Technical	The user/individual on the job needs to know and understand:		
Knowledge	KB1. different activities within his work area where an interaction with other workers is required		
	KB2. applicable techniques of work, properties of materials used, tools and tackles		
	used, safety standards that co- workers might need as per the requirement		
	KB3. importance of proper and effective communication and the expected		
	adverse effects in case of failure relating to quality, timelines, safety, risks at		
	the construction project site KB4. importance and need of supporting co-workers facing problems for smooth		
	functioning of work		
Skills (S)			
	Writing Skills		
	The user/ individual on the job needs to know and understand how to:		
	SA1. write in one or more languages, preferably the local language at the site		
	Reading Skills		
	The user/ individual on the job needs to know and understand how to:		
	SA2. read in one or more languages, preferably the local language at the site		
A. Core Skills/	SA3. read communication from team members regarding work completed,		
Generic Skills	materials used, tools and tackles used, support required		
	Oral Communication (Listening and Speaking skills)		
	The user/ individual on the job needs to know and understand how to:		
	SA4. speak in one or more languages, preferably one of the local language at the site		
	SA5. listen and follow instructions / communication shared by superiors/ co-		
	workers regarding team requirements or interfaces during work processes		
	SA6. orally communicate with co-workers regarding support required to complete		
	the respective work		
	Decision Making		
	The user/individual on the job needs to know and understand how to:		
	SB1. decide on what information is to be shared with co-workers within the team		
B. Professional	or from interfacing gang of workers		
Skills	Plan and Organise		
	The user/individual on the job needs to know and understand how to:		
	SB2. plan work and organize required resources in coordination with team		
	members		
	Customer centricity		

Work effectively in a team to deliver desired results at the workplace

The user/individual on the job needs to know and understand how to: SB3. complete all assigned task in coordination with team members

Problem solving

The user/individual on the job needs to know and understand how to:

SB4. take initiative in resolving issues among co-workers or report the same to superiors

Analytical Thinking

The user/individual on the job needs to know and understand how to:

- SB5. ensure best ways of coordination among team members
- SB6. communicate with co-workers considering their educational / social background

Critical Thinking

The user/individual on the job needs to know and understand how to:

SB7. evaluate the complexity of task and determine if any guidance is required from superiors

Plan and organize work to meet expected outcomes

National Occupational Standard

Overview

This NOS covers the skills and knowledge required to plan and organize work in order to meet expected quality in established time frame.

National Occupational Standards

CON/N8002

Plan and organize work to meet expected outcomes

Unit Code	CON/N8002	
Unit Title (Task)	Plan and organize work to meet expected outcomes	
Description This unit describes the knowledge and the skills required for an individual to organize own work in order to meet expected outcome.		
Scope	This scope covers the following: • Prioritize work activities to achieve desired results • Organize desired resources prior to commencement of work	
Performance Criteria (PC) w.r.t. the Scope	
Element	Performance Criteria	
Prioritize work activities to achieve desired results	To be competent, the user / individual on the job must be able to: PC1. understand clearly the targets and timelines set by superiors PC2. plan activities as per schedule and sequence PC3. provide guidance to the subordinates to obtain desired outcome PC4. plan housekeeping activities prior to and post completion of work	
Organize desired resources prior to commencement of work	PC5. list and arrange required resources prior to commencement of work PC6. select and employ correct tools, tackles and equipment for completion of desired work PC7. complete the work with allocated resources PC8. engage allocated manpower in an appropriate manner PC9. use resources in an optimum manner to avoid any unnecessary wastage PC10. employ tools, tackles and equipment with care to avoid damage to the same PC11. organize work output, materials used, tools and tackles deployed, PC12. processes adopted to be in line with the specified standards and instructions	
Knowledge and Ur	nderstanding (K)	
A. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: KA1. importance of proper housekeeping KA2. policies, procedures and work targets set by superiors KA3. roles and responsibilities in executing the work for subordinates and self	
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. standard practices of work to be adopted for assigned task KB2. how to use available resources in a judicious and appropriate manner to minimize wastages or damage	
Skills (S)	Skills (S)	

Plan and organize work to meet expected outcomes

	Writing Skills
	The user/ individual on the job needs to know and understand how to:
	SA1. write in one or more language, preferably the local language at the site
	SA2. list out the assigned works and targets
	Reading Skills
A. Core Skills/ Generic Skills	The user/ individual on the job needs to know and understand how to: SA3. read in one or more language, preferably the local language at the site SA4. read communication from co-workers, superiors and notices from other
	departments as per requirement of the level
	Oral Communication (Listening and Speaking skills)
	The user/ individual on the job needs to know and understand how to: SA5. speak in one or more language, preferably one of the local language at the site SA6. listen and follow communication shared by co-workers regarding standard work processes, resources available, timelines, etc. SA7. communicate effectively with co-workers and subordinates
	Decision Making
	The user/individual on the job needs to know and understand how to: SB1. decide on what sequence is to be adopted for execution of work
	Plan and Organise
	The user/individual on the job needs to know and understand how to: SB2. plan and organize the materials, tools, tackles and equipment required to execute the work
	Customer centricity
B. Professional Skills	The user/individual on the job needs to know and understand how to: SB3. complete all assigned task with proper planning and organizing
	Problem solving
	The user/individual on the job needs to know and understand how to: SB4. arrange or seek help to arrange for material, tools and tackles in case of shortfall
	Analytical Thinking
	The user/individual on the job needs to know and understand how to:
	SB5. analyze areas of work which could result in a delay of work, wastage of
	material or damage to tools and tackles
	Critical Thinking

Plan and organize work to meet expected outcomes

The user/individual on the job needs to know and understand how to:

SB6. evaluate potential solutions to minimize avoidable delays and wastages at the construction site

Work according to personal health, safety and environment protocol at construction site

National Occupational Standard

Overview

This NOS covers the skill and knowledge required for an individual to work according to personal health, safety and environmental protocol at construction site.

National Occupational Standards

CON/N9001

Work according to personal health, safety and environment protocol at construction site

Unit Code	CON/N9001		
Unit Title (Task)	Work according to personal health, safety and environment protocol at construction site		
Description	This NOS covers the skill and knowledge required for an individual to work according to personal health, safety and environmental protocol at construction site		
The scope covers the following: • Follow safety norms as defined by organization • Adopt healthy & safe work practices • Implement good housekeeping and environment protection pro- activities			
Performance Criteria (PC) w.r.t. the Scope		
Element	Performance Criteria		
Follow safety norms as defined by organization	To be competent, the user / individual on the job must be able to: PC1. identify and report any hazards, risks or breaches in site safety to the appropriate authority PC2. follow emergency and evacuation procedures in case of accidents, fires, natural calamities PC3. follow recommended safe practices in handling construction materials, including chemical and hazardous material whenever applicable PC4. participate in safety awareness programs like Tool Box Talks, safety demonstrations, mock drills, conducted at site PC5. identify near miss , unsafe condition and unsafe act		
Adopt healthy & safe work practices	PC6. use appropriate Personal Protective Equipment (PPE) as per work requirements including: • Head Protection (Helmets) • Ear protection • Fall Protection • Foot Protection • Face and Eye Protection, • Hand and Body Protection • Respiratory Protection (if required) PC7. handle all required tools, tackles, materials & equipment safely PC8. follow safe disposal of waste, harmful and hazardous materials as per EHS guidelines PC9. install and apply properly all safety equipment as instructed PC10. follow safety protocol and practices as laid down by site EHS department		

Work according to personal health, safety and environment protocol at construction site

Implement good housekeeping practices		PC11. collect and deposit construction waste into identified containers before disposal, separate containers that may be needed for disposal of toxic or hazardous wastes PC12. apply ergonomic principles wherever required	
	Knowledge and Un	derstanding (K)	
A.	Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: KA1. reporting procedures in cases of breaches or hazards for site safety, accidents, and emergency situations as per guidelines KA2. types of safety hazards at construction sites KA3. basic ergonomic principles as per applicability	
В.	B. Technical Knowledge The user/individual on the job needs to know and understand: KB1. the procedure for responding to accidents and other emergencies at site KB2. appropriate personal protective equipment to used based on various working conditions KB3. importance of handling tools, equipment and materials as per applicable KB4. health and environments effect of construction materials as per applicability KB5. various environmental protection methods as per applicability KB6. storage of waste including the following at appropriate location: • non-combustible scrap material and debris • combustible scrap material and debris • general construction waste and trash (non-toxic, non-hazardous) • any other hazardous wastes • any other flammable wastes KB7. how to use hazardous material, in a safe and appropriate manner as per applicability KB8. safety relevant to tools, tackles, & requirement as per applicability		
	Skills (S)		
A. Core Skills/ Generic Skills		Writing Skills The user/ individual on the job needs to know and understand how to: SA1. write in one or more language, preferably the local language at the site SA2. fill safety formats for near miss, unsafe conditions and safety suggestions	
		Reading Skills	
		The user/ individual on the job needs to know and understand how to: SA3. read in one or more language, preferably the local language at the site SA4. read sign boards, notice boards relevant to safety	

Work according to personal health, safety and environment protocol at construction site

	Oral Communication (Listening and Speaking skills)
	The user/ individual on the job needs to know and understand how to: SA5. speak in one or more language, preferably one of the local language at the
	site SA6. listen instructions / communication shared by site EHS and superiors regarding site safety, and conducting tool box talk SA7. communicate reporting of site conditions, hazards, accidents, etc.
	Decision Making
	The user/individual on the job needs to know and understand how to: SB1. not create unsafe conditions for others SB2. keep the workplace clean and tidy
	Plan and Organise
	SB3. N.A Customer centricity
	SB4. N.A
B. Brofossional	Problem solving
B. Professional Skills	The user/individual on the job needs to know and understand how to: SB5. identify safety risks that affect the health, safety and environment for self and others working in the vicinity, tackle it if within limit or report to appropriate authority
	Analytical Thinking
	The user/individual on the job needs to know and understand how to: SB6. assess and analyze areas which may affect health, safety and environment protocol on the site
	Critical Thinking
	The user/individual on the job needs to know and understand how to: SB7. ensure personal safety behavior
	SB8. respond to emergency

CRITERIA FOR ASSESSMENT OF TRAINEES

<u>Job Role</u> Bar Bender and Steel Fixer

Qualification PackCON/Q0203Sector Skill CouncilConstruction

Guidelines for Assessment

- 1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.
- The assessment for the knowledge part will be based on knowledge bank of questions created by Assessment Bodies subject to approval by SSC
- 3. Individual assessment agencies will create unique question papers for knowledge/theory part for assessment of candidates as per assessment criteria given below
- 4. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training center based on assessment criteria.
- 5. The passing percentage for each QP will be 70%. To pass the Qualification Pack, every trainee should score a minimum of 70% individually in each NOS.
- 6. The Assessor shall check the final outcome of the practices while evaluating the steps performed to achieve the final outcome.
- 7. The trainee shall be provided with a chance to repeat the test to correct his procedures in case of improper performance, with a deduction of marks for each iteration.
- 8. After the certain number of iteration as decided by SSC the trainee is marked as fail, scoring zero marks for the procedure for the practical activity.
- 9. In case of successfully passing only certain number of NOS's, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack within the specified timeframe set by SSC.
- 10. Minimum duration of Assessment of each QP shall be of 4hrs/trainee.

				Marks Allocation	
		Total Mark	Out Of	Theory	Skills Practical
CON/N0204: Read and understand routine	PC1. read and interpret basic detail from the sketches / drawings	100	10	2	8
	PC2. understand fixing/insertion sequence from the drawings	100	5	1	4

drawings/sket ches and Bar	PC3. find out the direction and position of rebars from the drawing		5	1	4
Bending Schedule	PC4. calculate number of chairs, spacer bars requirement to be used		10	2	8
	PC5. find out the size and type of cover block to be used from the drawing		5	1	4
	PC6. calculate cutting length required for basic works from the sketches		10	2	8
	PC7. plan for cutting of rebars as per instructions		5	1	4
	PC8. read & interpret correct detail from Bar bending schedule including types, diameter, shape, cutting length, number of rebars		10	2	8
	PC9. calculate the cutting length of rebar from the provided BBS		15	3	12
	PC10. understand terms used in bar bending schedule		5	1	4
	PC11. estimate quantities of work from bar bending schedule		15	3	12
	PC12. plan for cutting of rebars as per instructions, considering minimum wastage and cutting length		5	1	4
		Total	100	20	80
	PC1. select hand tools/power tools for cutting rebars as per requirement / instruction	100	10	2	8
	PC2. select cutting blade for cutting of rebar as per requirement / instruction		5	1	4
CON/N0205: Use hand and	PC3. make use of measurement and marking tool to mark on rebars for cutting as per specified length in the BBS		10	2	8
power tools for cutting and bending of reinforcement	PC4. place rebars properly for cutting, as per requirement and instruction		5	1	4
	PC5. ensure adequate number of rods are placed for cutting to avoid damage to machine		5	1	4
	PC6. maintain correct body posture while cutting rebars manually or mechanically		10	2	8
	PC7. tag and stack rebars after cutting as per standards practices		5	1	4

	PC8. select hand/power tools for bending rebars with respect to the work		5	1	4
	PC9. select accessories for bending with respect to the diameter of rebar used & machine used		5	1	4
	PC10. mark on rebar and place & fix rods on correct position for bending		10	2	8
	PC11. maintain correct body posture while bending rebars manually or mechanically		5	1	4
	PC12. bend rebars as per the shape and dimensions given in the BBS, including hooks		10	2	8
	PC13. check for length, shape of rebars to ensure they are within the tolerance limit		10	2	8
	PC14. tag and stack rebars after bending as per standard practices		5	1	4
		Total	100	20	80
	PC1. read & understand relevant specification given in the sketches/drawing	100	5	1	4
	PC2. follow correct method for insertion/ fixing of rebars as per the types of structure		5	1	4
CON/N0206: Prepare,	PC3. select rebars for placement as per the drawing		5	1	4
fabricate, place and fix reinforcement for R.C.C structures	PC4. mark and place rebars, fabricate cage and fix on its position as per the drawing		10	2	8
	PC5. maintain uniform spacing between the bars, stirrups, link rod as per the drawing		10	2	8
	PC6. stagger the lap to avoid more than 50% of splicing		10	2	8
	PC7. place and fix mechanical coupler in case of higher diameter rebars used		5	1	4
	PC8. tie reinforcement with approved binding wires as per drawing with specified spacing		5	1	4

	PC9. ensure cover blocks and spacers are placed to maintain appropriate covers & spacing		5	1	4
	PC10. place and fix chairs at specified spacing to maintain correct thickness		10	2	8
	PC11. ensure that location and position of reinforcement and fixing ties to reinforcement are checked for accuracy		5	1	4
	PC12. follow sequence of tying as per method statement	 	10	2	8
	PC13. provide suitable stiffeners for lifting in case of prefabricated cage		5	1	4
	PC14. check quality of reinforcement work with reference to spacing, placement of rebars		5	1	4
	PC15. report to superior for checking of work executed and take corrective action if any error or issue is found		5	1	4
		Total	100	20	80
	PC1. pass on work related information/requirement clearly to the team members	100	10	2	8
	PC2. inform co-workers and superiors about any kind of deviations from work		5	1	4
CON/N8001:	PC3. address the problems effectively and report if required to immediate supervisor appropriately		5	1	4
Work effectively in a team to	PC4. receive instructions clearly from superiors and respond effectively on same		5	1	4
deliver desired results at the	PC5. communicate to team members/subordinates for appropriate work technique and method		5	1	4
workplace	PC6. seek clarification and advice as per requirement and applicability		10	2	8
	PC7. hand over the required material, tools tackles, equipment and work fronts timely to interfacing teams		30	6	24
	PC8. work together with co-workers in a synchronized manner		30	6	24
		Total	100	20	80
CON/N8002: Plan and	PC1. understand clearly the targets and timelines set by superiors	100	10	2	8

organize work to meet expected outcomes	PC2. plan activities as per schedule and sequence		10	2	8
	PC3. provide guidance to the subordinates to obtain desired outcome		10	2	8
	PC4. plan housekeeping activities prior to and post completion of work		10	2	8
	PC5. list and arrange required resources prior to commencement of work		10	2	8
	PC6. select and employ correct tools, tackles and equipment for completion of desired work		10	2	8
	PC7. complete the work with allocated resources		10	2	8
	PC8. engage allocated manpower in an appropriate manner		10	2	8
	PC9. use resources in an optimum manner to avoid any unnecessary wastage		5	1	4
	PC10. employ tools, tackles and equipment with care to avoid damage to the same		5	1	4
	PC11. organize work output, materials used, tools and tackles deployed,		5	1	4
	PC12. processes adopted to be in line with the specified standards and instructions		5	1	4
		Total	100	20	80
	PC1. identify and report any hazards, risks or breaches in site safety to the appropriate authoritys	100	5	1	4
CON/N9001: Work according to personal health, safety and environment protocol at construction site	PC2. follow emergency and evacuation procedures in case of accidents, fires, natural calamities		5	1	4
	PC3. follow recommended safe practices in handling construction materials, including chemical and hazardous material whenever applicable		10	2	8
	PC4. participate in safety awareness programs like Tool Box Talks, safety demonstrations, mock drills, conducted at site		5	1	4
	PC5. identify near miss , unsafe condition and unsafe act		5	1	4

PC6. use appropriate Personal Protective Equipment (PPE) as per work requirements including: • Head Protection (Helmets) • Ear protection • Fall Protection • Foot Protection • Face and Eye Protection • Hand and Body Protection • Respiratory Protection (if required)		10	2	8
PC7. handle all required tools, tackles, materials & equipment safely		5	1	4
PC8. follow safe disposal of waste, harmful and hazardous materials as per EHS guidelines		5	1	4
PC9. install and apply properly all safety equipment as instructed		15	3	12
PC10. follow safety protocol and practices as laid down by site EHS department		15	3	12
PC11. collect and deposit construction waste into identified containers before disposal, separate containers that may be needed for disposal of toxic or hazardous wastes		10	2	8
PC12. apply ergonomic principles wherever required		10	2	8
	Total	100	20	80
