1. Introduction

India, like many other nations, is bestowed with a demographic dividend, and Karnataka stands as a testament to this advantage. The Government of Karnataka has strategically steered its focus towards skills development and job creation, recognizing the potential for economic growth within the state. Karnataka embodies a harmonious blend of modern industrial development, knowledge, honed skills, and a responsive government. In a pioneering move within the nation, Karnataka has been at the forefront of empowering districts through the establishment and activation of District Skill Missions. This approach ensures a bottom-up strategy in crafting and executing skill development programs. Notably, Karnataka took the lead in implementing demand-driven skilling interventions with initiatives such as PMKVY 3.0, SANKALP, Talent Acceleration Programmes (TAP), and the CMKKY scheme. These initiatives have significantly enhanced the involvement of district skill committees in crucial aspects such as mobilization, counseling, industry engagement, partnerships, and convergence.

Over the years, Karnataka has emerged as a prominent player in the skilling landscape, showcasing best-in-class initiatives in skill development and entrepreneurship not only within the state but also on a national scale. The state has demonstrated a heightened commitment to elevating the quality of education and expanding the reach of skilling programs, contributing to a comprehensive coverage across its expanse. Since its inception in 2016, the Karnataka Skill Mission has made substantial strides in empowering the youth by equipping them with enhanced skills, knowledge, and employment opportunities, thus propelling the state's growth trajectory. The Department of Skill Development, Entrepreneurship, and Livelihood (SDEL), established in 2016, has played a pivotal role in orchestrating skill development endeavors across the state. By bridging the gap between the demand and supply of skilled manpower, fostering professional and technical training structures, and fostering innovative thinking, the department is not only preparing individuals for existing jobs but also shaping a skilled workforce for the jobs of the future.

Karnataka Skill Development Corporation (KSDC)

KSDC is the umbrella body for all skill development, entrepreneurship and livelihood initiatives of the State. State Government has designated KSDC as nodal agency for conducting skill training programmes in the state.

Mission

- Shall have an institutional mechanism and implementation framework that ensures an effective **CONVERGENCE**. The programs and schemes of different line departments of the Government of Karnataka, Government of India, Industry sector, skill councils, civil society and bilateral/multilateral agencies and other organizations will be converged at the implementation level for achieving the policy goal and ensure the best services to the primary stakeholders.
- Shall ensure **QUALITY** in the training curriculum and course materials to meet the standards of the employer agencies and market needs. Shall improve certification norms for augmenting employability and free movement of the workforce;
- Shall encourage **INNOVATION** both in idea as well as in implementation process so that the ideas are translated to productive action
- The institutional structure would operate in a mission mode having an eclectic mix of people from Government, Industry, Civil Society, Academia Banking and Commerce Institutions.

Nodal Agency for Skilling

The Government has decided to integrate various skill building programmes implemented by different departments to ensure the effectiveness of Skill Training activities. The vision of the Government was to bring in a centralized system of selecting and monitoring skill training courses and institutions besides tracking the trainees till they get employed. Hence the Government has declared the Karnataka Skill Development Corporation as a Nodal Agency for entire state in the year 2016.

This ensured adopting common standard framework of programmes and fee structures, by which overlapping, or duplication of efforts and wastage of resources will be avoided. This declaration helps in creating synergy among different departments engaged skill development activities.
